

Our New Additions to the Color Family...

ASP's Quick Snap 16[©] 29 ga panel line is introducing
2 new colors
Light Stone and **Matte Black** to our standard color choices.

Our substrate has also changed from G-90 Galvanized, to AZ50 Galvalume[®]. The new Ceram-a-star 1050[®] high performance Silicone Polyester Finish is the industry's best and strongest SMP coil coating system, offering superior color stability, chalk resistance, fade resistance and gloss retention.
